Profile

A motivated and enthusiastic front-end developer with a strong passion for creating visually appealing and user-friendly web experiences. Skilled in translating design concepts into responsive and interactive websites, I am dedicated to delivering high-quality front-end solutions.

Education

Bachelor of Technology in Computer science, 2020 – present | Amritapuri, India

Amrita School of Engineering

CGPA : 7.21

Higher Secondary, City Central School 2018 – 2020 | Kollam, India

Secondary, City Central School 2008 – 2018 | Kollam, India

Projects

Election Management system

I have developed a simple election management system using MySQL, which allows for the efficient storage and retrieval of election-related data

Heart -Disease -detection

I have worked on a project focused on developing a machine learning model for heart disease detection. This project aimed to leverage the power of artificial intelligence to analyze various medical data and predict the likelihood of an individual developing heart disease.

MBTI personality perdition

I have actively participated in an ML group project focused on MBTI (Myers-Briggs Type Indicator) personality prediction. Our objective was to develop a machine learning model capable of predicting an individual's MBTI personality type based on their written text or social media posts.

P2P ML System

I have collaborated on a group project to develop a simple peer-to-peer machine learning (ML) model sharing system. This project aimed to create a platform where users can share their trained ML models with others in a decentralized manner.

Professional Experience

IOT Based Networking, Data Analytics And Machine Learning 12/2020 – 01/2021

I had the opportunity to participate in an online internship with MegaraRobotics focused on IoT-based networking, data analytics, and machine learning. This internship provided valuable hands-on experience and exposure to cutting-edge technologies and applications in the field of Internet of Things (IoT) and machine learning.

Interests

Open source, Web design and development trends, Game Development

Skills

OS (Windows,Linux), **Languages** (Python,Java), **Soft Skills** (Team Work , Adaptability)

Community Outreach programs

Student Social Responsibility, *seminars on Menstrual Hygiene and Cyber Security*

Seminars were held at Prakkulamm NSS HSS covering Menstrual Hygiene for students in grades 5, 6, 7, and 8, as well as cyber security for students in grades 11 and 12. The seminars provided valuable insights into menstrual hygiene and enhanced their knowledge about cyber awareness.

Certifications

- Google IT Specialist
- Web Development Ultimate Guide 2022
- Energy Literacy Training

Achievements

Hacktoberfest 2022

Successfully participated in Hacktoberfest 2022, a global event promoting open source software development, and completed 4 pull requests within the given timeline.

Leadership & Activities

Volunteered for ICPC 2021, *Student Volunteer*

Volunteered for ICPC 2021 and was a member of the reserve team, contributing to the overall success of the event.

Vidyut 2K23, *Executive Member*

I had the opportunity to volunteer at Vidyut 2k23, a college national level multifest held in my college.

Amrita Kalotsavam 2k23, *Volunteer*

I had the privilege of volunteering at Amrita Kalotsavam, a vibrant cultural fest held in my college. .

amESE Club

As an active participant of the amESE Club, I played a proactive role in organizing workshops and events. Additionally, I actively engaged in club activities, such as participating in beach cleanups and visiting the TCC industry.

ACM Student Chapter

I actively participated in the Web Development Special Interest Group (SIG) during my college years.
